

EDB SPECIAL AIDED SCHOOLS

Location	: Hong Kong
Date of Completion	: 2024 (anticipated)
GFA	: 11,900sqm
Client	: Education Bureau
Role	: Authorized Person, Lead Consultant

Project Description:

A three-year term consultancy comprises of conversion works and related school improvement works for 24 numbers of existing special aided schools across different districts in Hong Kong. These special-aided schools mainly serve students with different levels of intellectual disabilities, such as mildly, moderately and severely, and physically disabled. The project is supervised by Education Bureau (EDB) and commissioned under the Public Works Programme. The anticipated total value of the whole project is approximately HK\$270M.

The conversion works, which include A&A works as well as new annex additions, aim to meet the implementation of new senior secondary school academic structure (NSS) and improvement measures on extension of years of studies (EoS). L&O is appointed as the lead consultant and architect with its sub-consultant team to provide full architectural, engineering, landscaping services and risk management services from Inception Feasibility Stage through to Construction and Post-Handover Services Stage.
